2021 Nightly Bat Activity Datasheet

Name: Zipcode:

Type of recording device:

Number and type of feeders being monitored:

Record the first and last time a bat tries to feed from your feeder (not just flying past the camera) as well as the time at which the feeder is drained. We are interested in whether bats are continuing to visit and "drink" from an empty feeder and if so, for how long. Please score number of bats on an ordinal scale in which 1= 1-5 bats; 2=6-10 bats; 3= 11-20 bats; and 4 = >20 bats

Date	Time of first visit	Time of last visit	Time feeders drained	Number of bats at peak activity	Other observations
